

## Hopkinsville, Kentucky.

PUBLISHED TUESDAY AND FRIDAY MORNING.

CHAS. M. MEACHAM,  
Subscription \$2 a Year in Advance

Local printing notices to order, set type, and all other printing notices, furnished on application.

Office 13 and 20 Ninth Street.

FRIDAY, OCTOBER 14, 1892.

For President,  
GROVER CLEVELAND  
of New York.

For Vice President,  
ADLAI E. STEVENSON,  
of Illinois.

For Congress,  
WM. T. ELLIS,  
of Davis county.

For Circuit Judge  
JNO. R. GRACE,  
of Trigg.

For Commonwealth's Attorney,  
JAS. B. GARNETT,  
of Trigg.

For Sheriff,  
MATT S. MAJOR.

Electoral Ticket.

At large—W. R. Kinsley.  
At large—Claude M. Thomas.  
First district—Chas. K. Wheeler.  
Second district—Warren Hendley.  
Third district—J. B. Richardson.  
Fourth district—W. T. Haywood.  
Fifth district—Jno. B. Baskin.  
Sixth district—Jno. T. Hodges.  
Seventh district—J. A. Scott.  
Eighth district—J. M. Rathwell.  
Ninth district—W. G. Deering.  
Tenth district—J. C. Lykins.  
Eleventh district—N. B. Hays.

The Tariff Plank.

"We denounce the McKinley tariff law enacted by the Fifty-first Congress as the culminating atrocity of class legislation; we denounce Republican protection as a fraud, a robbery of the great majority of the American people for the benefit of the few. We declare it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to enforce and collect tariff duties except for the purpose of revenue only, and demand that the collection of such taxes shall be limited to the necessities of the government, honestly and economically administered."

The Governor Coming.

Governor John Young Brown has consented to speak at the Court House in this city on Saturday Oct. 29.

Steady, boys, and don't get rattled. Victory is just ahead.

Ninety Hawks will trot at Nashville on next Thursday, the 20th inst.

Dr. Clardy will make three speeches in the other end of the district the last week in October.

The suit questioning the validity of Indiana's apportionment law has been postponed by the Supreme Court till Nov. 17. This is first blood for the Democrats.

Judge J. H. Brent has been declared the Democratic nominee for Superior Court Judge in the Eastern district, without appointment.

The tidal wave that is sweeping everywhere towards democracy, has struck Tennessee's Republican strongholds and even Chattanooga has gone Democratic for the first time in thirty years.

John T. Grayot has been nominated for Commonwealth's attorney in the fourth district, in place of L. H. James, who withdrew. The nomination was tendered to Flom Gordon but he declined.

Hon. J. J. C. Black, the Democratic candidate in Tom Watson's district in Georgia, is a native of Georgetown, Ky., and a classmate of Hon. Jas. F. Clay of Henderson. He is almost certain of election, as the district went Democratic in the recent State election by 1500 over the combined opposition.

Judge Grace has been in Calloway this week and is sending cheering reports of his campaign down there. Calloway will do her duty well and Judge Grace will carry the county by from 800 to 1000 majority. Trigg and Lyon will give him 800 more and Judge Landies may possibly get 500 in this county. Judge Grace's majority in the district ought not to be less than 1,000. But it is the duty of every Democrat in the district to make it 1,101.

The revolution that has been disrupting Venezuela for some time has resulted in the complete triumph of Gen. Crespo, the leader of the revolutionists. Caracas has been captured and acting President Pulido and his cabinet have taken flight. The cause of the revolution was the attempt of President Pulido to install one of his own creatures as his successor. Crespo was received with joy by the people and an election of a President will be ordered at once. These South American revolutions are of too frequent occurrence to attract more than a passing notice.

Four Democratic electors in Minnesota have been withdrawn and four Republican electors have been placed on the Democratic ticket. A fusion, at the last moment before the tickets had to be closed, has filled the Republicans with consternation, since it makes the defeat of four Republican electors a foregone conclusion. At the last election the vote stood: Republican 55,000; Democratic 55,000; Alliance 55,000. The Republicans themselves do not claim over

Once more the Legislature has begun to legislate and the two houses have proceeded far enough to get in to another deadlock.

The Congressional candidates will make several speeches in this county next week and the joint discussions ought to attract large crowds.

The coming over to Cleveland of the great colored Bishop, John M. Brown, who advises his people to vote for Cleveland, is the sensation of this week.

It is now regarded as certain that Illinois will elect a Democratic Governor and there is a strong probability that the State will also go for Cleveland and Stevenson.

The rumor that Walter P. Emerson will go to Covington to edit the Commonwealth turns out to be true and he left Russellville this week.

Latham, Alexander & Co., of New York, have issued the 19th edition of their annual book, "Cotton Movement and Fluctuations." Besides many valuable statistics, there is much original matter that cannot be found elsewhere in such a concise form. The book also contains an annual review of the cotton business.

Congressman W. C. P. Breckinridge has, at the last moment, positively declined to orate for the World's Fair people next Friday. He has been dilly-dallying for a month, and his course will result in a disappointment to the management, as Dewey is the only orator in the country who is always landed, and he is down for another speech the same day and cannot be secured.

History says Columbus discovered America Oct. 12, 1492, but since that time the calendar has been moved up eleven days to correct the inequalities of 400 years. This change which moved up the birthday of George Washington from the 11th to the 22d of February, also postponed the discovery of America till Oct. 21st and therefore the 400th anniversary of that event will not be celebrated until next Friday.

The Supreme Court of the United States has taken up the Michigan Miner law, providing for the choosing of the electors by districts, and will in all likelihood hold it to be unconstitutional before the election, as such a decision is absolutely necessary to give Harrison even a fighting chance. If such a partisan step is taken by the highest court of the land, the people of Michigan will be heard from at the polls and the state may be expected to repeat its Democratic victory of two years ago.

Speaker Crisp's visit to this district was one of the principal features of the campaign so far and will be productive of much good. At Morgantown, Henderson and Owensboro the distinguished visitor was greeted with great and enthusiastic crowds and his speeches were masterpieces of logical and convincing argument. Mr. Crisp is a truly great man and one is bound to be impressed with that fact after hearing him. He is a real statesman and as a speaker is very much on the order of Senator Carlisle. Mr. Crisp is now in Michigan making a series of speeches.

The world of Fashion has been astir of late in consequence of the revival of what is called the director's styles, for which much popularity is predicted this Autumn. The Director being that period of French history which preceded the coronation of Napoleon I, and of his wife, Josephine, leads naturally to the Empire and Josephine styles, concerning which there is also a great deal of interest manifested. Another favorite variation will be the Racineur costume, taking its appellation from the famous lady of that name, who is doubly celebrated for her beauty and her friendship with Mme. de Stael. The old time balloon sleeve, another reminiscence of that epoch, will be much in vogue this Fall. Many people use the expression director, Empire, Racineur without fully realizing what these terms signify, and are consequently apt to err in their endeavor to adopt the latest novelties. A careful perusal of a first-class Fashion Magazine like La Mode de Paris, Album of Fashion or La Couturiere will furnish a satisfactory explanation of the differences between these historical costumes. These journals not only illustrate all modifications of these sundry styles, but also give full length descriptions of the materials to be used with appropriate trimmings, and reproduce as well the latest novelties in millinery and hat ornaments. The most practical way of obtaining this information is to subscribe for these Journals. La Mode de Paris and Album of Fashion are \$3.50 per year each. They are the most artistic Fashion Magazines published. La Couturiere is a fine home journal for \$3.00 and La Mode is only \$1.50 per year. Another important fact to remember is that the three former publications contain each month a lesson on some popular garment with valuable practical suggestions. You can generally get single copies from your newsdealer, but do not allow him to give you some other journal for one of these. You can get them through the publishers, Messrs. A. McDowell & Co., 4 West 14th Street, New York.

World's Fair Opening.  
\$8.95 round trip via Evansville & Terra Haute R. R., Evansville to Chicago. Tickets on sale Oct. 19th, 20th and 21st, good returning until Oct. 24th. Three trains daily through to Chicago. Apply early for sleeping

## MATRIMONIAL.

GAZET-MOORE.—At Trenton Oct. 5, Mr. John Garth and Miss Lucy Moore were united in marriage. The contracting parties are members of wealthy families and are prominent in Trenton society. The bride is a daughter of Mr. Newton Moore.

Cards are out for the marriage of Miss Daisy Holloway McComb to Mr. Thos. B. Johnson, at the residence of the bride's father, Mr. Lyman McComb, near Pembroke, on Wednesday, Nov. 2nd, at high noon. Miss McComb is one of the most beautiful of all the lovely young ladies in Christian county and her graces of mind and character are equal to her personal charms.

Jefferson McKee, aged 15, and Miss Cordelia Reynolds, aged 15, were married at Gainesville, Texas, on a license procured by fraud.

Miss Jessie Newberry, daughter of Gen. Robert C. Newberry, and Robert Hughes McCreary, son of Congressman McCreary, of Kentucky, were married at Chicago. Mr. McCreary will make Chicago his home.

Mr. Ferdinand Mann, of Henderson, and Miss Blanche Rosenfield, of Owensboro, were married Tuesday evening in the Jewish Synagogue at Owensboro.

KNIGHT-SIZEMORE.—Mr. Jas. Knight and Miss Dora Sizemore, both of North Christian, were married in the County Clerk's office in this city Wednesday morning. Judge T. J. Morrow officiating.

WEAVER-UNDERWOOD.—Mr. G. L. Weaver and Miss Mary B. Underwood, both of the Bainbridge neighborhood, came to the city Wednesday morning and were married in the County Court room, Judge Morrow tying the nuptial knot.

PORTER-ADCOCK.—Mr. Thomas W. Porter and Miss May Adcock were married at the Baptist church in Pembroke at 7:30 p. m., Wednesday, Rev. Fong officiating. A reception was tendered the couple at Mr. W. D. Barnett's. The groom is one of the Porters Bros., livermen, at Pembroke, and is a very popular gentleman and good business man. His bride is a very attractive young lady and quite popular in Pembroke society.

## MARRIAGE LICENSES.

Charles Hiffin to Nellie Flower.  
Jas. Knight to Dora Sizemore.  
Lucian Boyd to Thrudonia Fowler.  
J. M. Craig to Dora Williams.  
Augustus F. Blake to Ida Arvin.  
G. L. Weaver to Mary B. Underwood.  
T. W. Porter to May Adcock.  
Jno. B. McGee to Nannie P. Maddox.  
Joseph E. Davis to Leavie S. Winstell.  
Jno. Cary to Lucy A. Knight.  
W. T. Hayes to Flora R. Wade.  
H. S. Wade to Sarah M. Jenkins.  
Joseph W. Wilson to Ollie Roberts.  
Wilson Johnson to Serena Johnson.  
Doris Johnson to Ardis Jobe.  
Ellis Tyler to Mary Broughn.  
Phil Bradshaw to Manda Browder.  
Harry Carter to Mary Hasee.  
William Moore to Alice Hatcliff.

## DEATHS.

McGUIRE.—Mrs. Martha A. McGuire, widow of the late Thomas McGuire, of Trenton, died Tuesday, aged 62 years.  
SMITH.—Mrs. Lucy Smith, wife of Mr. James Smith, of Bennettsburg, died Monday evening last, aged about 75 years. Deceased had been in feeble health for several years, and recently fell from a porch, sustaining a fracture of a hip, which tended to shorten her days. She had been a consistent member of the Baptist church for twenty five years. The interment took place near Lafayette Tuesday afternoon.  
WOOD.—The infant daughter of Mr. Joe R. Wood died Tuesday, aged six months. The remains were interred at Hopewell cemetery Wednesday. The sympathy of the community is extended Mr. and Mrs. Wood in their affliction.  
CHAVEN.—Mr. John Chaven died at his home near Joubert, Wednesday night of kidney trouble, aged about 70 years. Deceased had been ill for a long time. The interment took place at the family burying ground yesterday.  
DULIN.—Henry Dulin died near Crofton, Monday evening of bright's disease of the kidneys, aged about 60 years. Deceased was a brother-in-law to Sheriff W. M. West.  
UNDERWOOD.—Mrs. Nancy Underwood died at her home 7 miles east of the city Monday, aged 74 years.  
GREEN.—Charles Green died in the city Monday, aged 70 years.  
CAMPELL.—Mary Campbell died near Chalky of fever Wednesday, aged 18 years.  
Beware of Quinins for Catarrh that Contain Mercury.  
as mercury will surely destroy the system of small and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and it is taken internally, and acts directly upon the blood and mucous surfaces of the system. In buying

The life of the President's wife is fast ebbing away. Her days are undoubtedly numbered and death may come at any time. In this great domestic affliction Mr. Harrison has the profound sympathies of all the people.

And still they come. Dr. Vincent H. Moore, a life-long Republican and editor of the Seymour, Ind., Journal, has come out for Cleveland and changed his paper's politics. Bishop John M. Brown, of the African Methodist church, whose home is in Washington, has also declared for Cleveland and has issued an address advising his people to vote for the Democratic ticket.

## Speaking Appointments.

Senator Blackburn will speak, at the request of the State Central Committee, at the following places: Madisonville, Friday, October 14. Henderson, Saturday, October 15. Speaking to commence at each place at 2 o'clock p. m.  
Speaker Chas. F. Crisp, of Georgia, will make three speeches in the Second district as follows:  
Hon. P. W. Hardie and Dr. J. D. Clardy will also make several speeches in this district about the middle of October.  
Senators, Congressmen, Judges, great Lawyers, Professors, ALL pronounce the L. W. Harper Whiskey superior to the finest French brandy. The leading physicians prescribe it on account of its purity. For sale by J. W. Smith and W. R. Long, Hopkinsville, Ky.

The September Scriber contains the usual number of seven elaborately illustrated articles.

It is well known that the late Samuel J. Tilden bequeathed his great fortune to Trustees, with the intention of founding in New York a great library—confiding all details to the discretion of the three trustees whom he selected, Messrs. John Bigelow, Andrew H. Green, and George W. Smith. The Court of Appeals held that the discretion was too general and the will void; thereby partially preventing the carrying out of one of the greatest and most beneficent plans for a public institution ever formed in this country by a private citizen.

During the long process of the lawsuit over the will, the lips of the Trustees were naturally sealed as to what were the details of the project; but now that the decision has been reached they are freed from any such restriction—more especially by a fortunate arrangement with one of the successful heirs, they are still left in possession of a sum large in itself and sufficient to carry out an important portion of the design. Ex-Minister John Bigelow, one of the Trustees, has therefore now decided to publish in this number of the Magazine, under the title, "The Tilden Trust Library; What Shall It Be?" the facts concerning Mr. Tilden's wishes as to the details of the plan, and also a most important proposal for still carrying out a large part of it by the erection of a great library building in the very centre of New York. The scheme with its elaborate illustrations, is one of the most interesting ever laid before the public.

## THE ARGONAUTIC EXPEDITION.

Story of the Golden Fleece Taken from the Ancient Mythology.  
Perhaps there has never been any other society which has numbered among its members such high and mighty ones as the Order of the Golden Fleece during the middle ages in Europe. Kings, emperors, prelates, warriors were enrolled in it.  
Now, what was the Golden Fleece? It was to obtain this golden fleece that the "Argonautic expedition" set out from Greece in the far-off ages of fable and tradition.  
The fleece belonged to the ram of Phrixus, and the story runs thus: Jason, the rightful king of Iolcus, had to perform a task which was to prove himself worthy to occupy the throne which was then held by a usurper. Jason's uncle Athamas and his wife Nephele had two children, Phrixus and Helle. Nephele died, and Athamas married Joco, who hated her step-children. She persecuted her husband by a false oracle to offer up his son Phrixus as a sacrifice. But before the sacrifice the shade of Nephele appeared, bringing a ram with a golden fleece, on which Phrixus and Helle were to escape over the sea. Helle fell off, and was drowned in the strait which afterwards became the Hellespont, or the Sea of Helle. Phrixus reached the shore in safety, proceeded to Colchis, on the northern shore of the Black Sea, sacrificed the ram to Zeus and hung up the golden fleece in the grove of Mars. To bring back this fleece was the task of Jason.  
So Jason, gathering together a number of Greek chieftains among whom were Hecaeus, Creon, Pelex, Orpheus, Boreas, Admetus and others, set out for Colchis in the good ship "Argo". The adventurers passed through marvelous scenes on their way, landing once at Lemnos, the land of the Amazon or the female warriors, where a son was born to Jason.  
Finally they reached Colchis. But the King Eetes refused to deliver up the fleece until Jason should plow the land with the teeth of the dragon who guarded the fleece. Armed men were to spring from these dragon teeth. Eetes daughter, Medea, who was a beautiful sorceress, had fallen in love with Jason and gave him aid to the conquerors. She snatched Jason's body so that the fiery breath of the bulls would not destroy him, and instructed him to throw a stone among the armed men that sprang up from the teeth of the dragon. Then the armed men fell and lay upon the ground. Medea put the dragon to sleep, Jason slew him and bore off the golden fleece in triumph.  
Then the homeward voyage began, Medea accompanying Jason and her father Eetes pursuing them. To delay him, Medea disembarked her younger brother, Absyrtus, and scattered his limbs about over the sea for his father to pick up. It was a long journey back, with many wonderful adventures, Eetes giving up the pursuit and three granting absolution for the murder of Absyrtus.  
The "Argo" was placed in a cove sacred to Neptune, the god of the ocean, on the isthmus of Corinth, Jason, the myth says, was afterward killed by a part of the stern falling and killing him.  
This is one of the most famous of the

## SCHOOL AND CHURCH.

It is announced that on the occasion of the annual fall of the page next year there will be 500 priestly pilgrims from the United States, besides many hundreds from other parts of North America and from South America, attracted by numerous bishops and archbishops. They are expected to reach Rome in April.

There are over one hundred medical missionaries in China, fifty-six of whom are American women. The specially trained recruits given to the American representative on an important mission a few years ago was due to the influence of an American woman who had treated with great success several members of the family of Li Heng Chang, the premier.

The "Gospel Bearer" of Bishop Walker (Episcopal) of North Dakota, soon to be launched at Bismarck, will be called the Missouri Missioner, and will be used for Christian work in towns and camps along the Missouri for a distance of more than 500 miles. It is 12 feet in length and 3 feet in breadth. The 14th voyage, with this large church to reach many people who could not otherwise attend Divine service, and it is to be used for general Christian work of every kind that the region calls for.

The Presbyterian church has taken strong ground against the use of tobacco by ministers, and the number of objectors is constantly increasing. Every tobacco smoker who enters the Methodist ministry is asked if he uses tobacco, and it is almost impossible for one who does to secure admission. The question has been asked by a bishop who wishes to be a preacher in the Methodist Episcopal church who uses tobacco in any form.

The 230 evangelical labor associations of Germany have about 100,000 members. The aims and purposes of these societies are first, as follows: First, to arouse and foster an evangelical spirit among the Protestant workmen; second, to elevate the laboring man morally and intellectually; third, to cultivate a spirit of fidelity to the empire and government; fourth, to establish and maintain a friendly relationship between employer and employee; fifth, to aid and assist the members in case of sickness, want or distress. They originated with a working miner named Ludwig Fischer.

## LURES FOR POOR FISHES.

Artificial Bait Calculated to Deceive the Weak Fishes.

"These little green frogs are something new for bait," said a dealer in anglers' supplies to a Star writer. "They are made of soft India rubber. Here are corkrobes, also, of the same material, threaded on hooks. They save a great deal of trouble when real ones are scarce, and young ladies provided with them while fishing do not feel so awkward as when they are using male corks with requests that their lines be attended to. Pike and certain other carnivorous fishes very much enjoy a small mouse on the rare occasions when they occur, and are able, and so these little counterfeit mice are supplied to tempt their appetites. Imitations of various kinds of animals for use as bait are becoming more numerous every season. In this box of counterfeit insects are grasshoppers, lady bugs, bronze and black beetles, caterpillars and bees. It is not necessary to mention the hundreds of species of moths and other bugs that are reproduced in the shape of artificial 'flies,' made of bits of feathers and fur, that are gathered from all parts of the world for the purpose of imitating the look of things in a life-like manner a 'helmet'—the larvae of the dragon fly, otherwise known as the 'devil's darning needle.' Here are artificial crickets, which serve almost as well for bait as real ones. Another novelty is the 'floating minnow.' It is intended for trolling in shallow waters, where there are hippodamies on the bottom which are likely to fool the hook. So long as the bait is going ahead the minnow travels about half a foot beneath the surface; but when the boat pauses the minnow comes to the top instead of sinking and getting caught. Imitation 'sand eels' are a new kind of lure, and 'phantom minnows' are in greater variety than ever before. Looking things represent in a life-like manner a 'helmet'—the larvae of the dragon fly, otherwise known as the 'devil's darning needle.' Here are artificial crickets, which serve almost as well for bait as real ones. Another novelty is the 'floating minnow.' It is intended for trolling in shallow waters, where there are hippodamies on the bottom which are likely to fool the hook. Imitation 'sand eels' are a new kind of lure, and 'phantom minnows' are in greater variety than ever before. Looking things represent in a life-like manner a 'helmet'—the larvae of the dragon fly, otherwise known as the 'devil's darning needle.' Here are artificial crickets, which serve almost as well for bait as real ones. Another novelty is the 'floating minnow.' It is intended for trolling in shallow waters, where there are hippodamies on the bottom which are likely to fool the hook. So long as the bait is going ahead the minnow travels about half a foot beneath the surface; but when the boat pauses the minnow comes to the top instead of sinking and getting caught. Imitation 'sand eels' are a new kind of lure, and 'phantom minnows' are in greater variety than ever before.
